

## **Heavy Duty Sewing Thread**

Heavy duty sewing thread will not fray, unravel or break when sewing at high speeds that results in stitching evenly and smoothly. Therefore, the thread manage to handle all hard tasks for tough fabric.

### **Heavy Duty Polyester Sewing Thread**

Heavy duty polyester sewing thread is made from non-stretchy but strong polyester continuous filament. It's high strength and UV resistance made it popular among professional outdoor products exposed to sunlight over long periods such as automobiles, tarps, canvas, slings, awnings, tents, wire and cable applications, filtration, boat, marine fabric and more. It's also the ideal thread for general tough sewing like luggage and bag, furniture upholstery, footwear, sportswear, curtains, kites etc. that see less sunlight.

### **Heavy Duty Nylon Sewing Thread**

Heavy duty Nylon sewing thread is composed of strong nylon 6 and nylon 6.6 continuous filament. Besides carrying remarkable tensile strength, the thread is supple and stretchy that is necessary for sewing mattress, sofa, leather, sports goods, jeans and so on.
